Report of Independent Auditors

To the Board of Trustees of Yeshiva University

We have audited the accompanying consolidated financial statements of Yeshiva University and its subsidiaries, which comprise the consolidated statements of financial position as of June 30, 2021 and 2020, and the related consolidated statements of activities, and of cash flows for the years then ended.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Yeshiva University and its subsidiaries as of June 30, 2021 and 2020, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

1. The University and its Operations

Yeshiva University (the “University”) is a private, nonprofit institution of higher education primarily based in New York City. The University was founded in 1886 as the Rabbi Isaac Elchanan Theological Seminary (“RIETS”), with which it is still affiliated, and was chartered as a separate University in 1945. The University brings together the heritage of western civilization and the ancient traditions of Jewish law and life.

The University is comprised of several colleges and schools providing undergraduate, graduate, professional, and post-doctoral education and training. The University’s undergraduate education includes Jewish Studies (the Robert M. Beren Department of Jewish Studies and the Rebecca Ivy Department of Jewish Studies), Yeshiva College, Stern College for Women, Sy Syms School of Business, Katz School of Science and Health, and the S. Daniel Abraham Israel Program in Israel. Graduate and professional education is provided at the affiliated Albert Einstein College of Medicine (“Einstein”) (Note 1), and at its Benjamin N. Cardozo School of Law (“Cardozo”), Sy Syms School of Business, Wurzweiler School of Social Work, Ferkauf Graduate School of Psychology (“Ferkauf”), Azrieli Graduate School of Jewish Education and Administration, Bernard Revel Graduate School of Jewish Studies, and the Katz School of Science and Health. The University provides instruction to approximately 5,400 undergraduate, graduate and professional students.

The University is accredited by the Middle States Association of Colleges and Schools, Einstein is accredited by the Liaison Committee on Medical Education, and Cardozo is accredited by the American Bar Association. The other academic programs are accredited by appropriate state and professional accrediting agencies and associations.

The University has three Manhattan campuses: the Wilf Campus located in the Washington Heights section, the Israel Henry Beren Campus located in the Murray Hill section, and the Brookdale Center located in the Greenwich Village section. Ferkauf is located in a building in the Bronx, Einstein’s is on the Jack and Pearl Resnick Campus in the Bronx. The Wilf Campus, Beren Campus and the Brookdale Center, together with Ferkauf, comprise the Manhattan Campuses. The University operates a museum in New York City and is associated with programs in Israel and Canada.

The University derives its revenues principally from student tuition and fees, government appropriations, contributions, and investment earnings. Additional support is generated through auxiliary activities carried out by the University, such as dining services and residence facilities. The University spends these resources in support of its instructional and research mission.

Related Entities

Consolidated Organizations

There are several entities (the “Consolidated Organizations”) that are controlled by the University for which it provides various administrative services. The financial results of the Consolidated Organizations are consolidated for financial statement reporting purposes.

The Yeshiva Endowment Foundation, Inc. (the “Foundation”) was formed in 1927 as a separate not-for-profit corporation organized for the benefit of the University and its affiliate, RIETS. Control of the Foundation is vested in a Board of Directors, all of whom are members of the University’s Board of Trustees (the “Board of Trustees”). The Foundation includes five wholly owned, for-profit real estate corporations.

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

Y Properties Holdings, LLC (“Y Properties”) was formed in 2017 as a special purpose bankruptcy remote entity in connection with the refinancing of the University’s private placement debt which was collateralized by a mortgage encumbering five University properties in New York City. The purpose of Y Properties is to generally acquire, hold, maintain, operate, lease, or otherwise use its properties and to borrow money in furtherance of the objectives of Y Properties. The sole member of Y Properties is the University. On April 21, 2017, the University transferred ownership of the five aforementioned properties to Y Properties, and Y Properties entered into a \$140,000 loan agreement secured by a mortgage on such properties. The net proceeds of the loan (less the costs of issuance) were distributed to the University as the sole member and used to repay the private placement debt. The University continues to use these properties as a tenant, pursuant to a long-term operating lease with Y Properties as landlord (Notes 7 and 9(c)). Y Properties remains a separate entity whose assets and credit are not available to satisfy the University’s unrelated debts and other obligations. As the sole controlling member, the University includes the operations of Y Properties in the University’s consolidated financial statements.

Unconsolidated Organizations

RIETS and Yeshiva University High Schools (the “High Schools”), an education corporation that maintains separate secondary school programs for boys and girls, are independently incorporated not-for-profit institutions separately chartered by the Board of Regents of the State of New York in 1970 and 2009, respectively. Control of RIETS and the High Schools is vested in their respective boards of trustees, a minority of whose membership includes trustees of the University. The financial results for these two entities are excluded from the consolidated financial statements.

Affiliation Agreements

On September 9, 2015 (the “Acquisition Date” or the “Closing”), the University entered into a Joint Collaboration Agreement regarding Einstein with Montefiore Medicine Academic Health System, Inc. (“Montefiore Medicine”), an affiliate of Montefiore Medical Center (“Montefiore”) which has long been Einstein’s principal teaching hospital. Pursuant to the Joint Collaboration Agreement, the University transferred operational and financial responsibility for Einstein to a newly-created not-for-profit tax-exempt corporation (which, as of January 1, 2019, merged into a newly-created tax-exempt education corporation “AECOM”) controlled by Montefiore Medicine (the “Transaction”). In accordance with the Joint Collaboration Agreement, at the Closing the majority of the University’s investment and endowment accounts that were attributable to (i.e., donated for the benefit of) Einstein were transferred from the University to AECOM. The remainder of those investments have continued to be transferred to AECOM over time (Notes 4 and 11).

The University maintained academic oversight for the medical school (including granting degrees) and provided certain administrative services until AECOM became a freestanding degree-granting institution as of March 1, 2019. The University continued to sponsor and enroll international students at the medical school until June 1, 2020 when AECOM was able to do so on its own after receiving authority from the U.S. Government. In addition, as part of the transaction, the University retained ownership of (or the right to use) certain limited real estate assets on Einstein’s Resnick Campus in the Bronx.

Tax Matters

The University is a not-for-profit corporation described in Internal Revenue Code Section 501(c)(3) and is generally exempt from federal income taxes on related income under Internal Revenue Code Section 501(a). Accordingly, no provision for federal income tax has been recorded in the consolidated financial statements. The University is also exempt from New York income taxes

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

under the related state provisions. The University is subject to the unrelated business income tax on revenue generated by activities unrelated to its tax-exempt mission of education and research, primarily from income generated by certain investments. For the years ended June 30, 2021 and 2020, the University generated net unrelated trade or business income/(loss) of (\$593) and (\$691), respectively. As of June 30, 2021, the University had approximately \$20,400 of ordinary loss carry-forwards to offset unrelated business income and capital gains generated in future years. Management has taken the position not to record a deferred tax asset with respect to these losses, as it is uncertain whether such losses will be utilized in the future.

The Foundation is a not-for-profit corporation described in Internal Revenue Code Section 501(c)(3) and is exempt from federal income taxes under Internal Revenue Code Section 501(a). The Foundation operates as a supporting organization of the University and RIETS. The real estate entities are wholly owned by either the University or the Foundation, and operate as for-profit entities which are either disregarded or are subject to income tax at the federal, state, and local levels. In the opinion of management, these entities generate recurring losses and de minimis tax liabilities that are not material to the consolidated financial statements. Management has taken the position not to record a deferred tax asset with respect to these losses, as it is uncertain whether such losses will be utilized in the future.

Y Properties is a single member limited liability company that is classified as a disregarded entity for federal and state income tax purposes. For tax purposes, all of Y Properties' income and losses are reported by the University, its sole member.

Management assesses its income tax position each year to determine whether it is likely to be sustained if examined by an applicable taxing authority. This review for fiscal 2021 had no material impact on the consolidated financial statements.

2. Summary of Significant Accounting Policies

The significant accounting policies followed by the University are described below:

Basis of Presentation

The consolidated financial statements are prepared on the accrual basis of accounting in accordance with standards established by the Financial Accounting Standards Board ("FASB") for external financial reporting by not-for-profit organizations. While the underlying accounts of the University are maintained in accordance with the principles of fund accounting to facilitate observance of specific donor-imposed restrictions placed on some of the resources available to the University, the accompanying consolidated financial statements present the financial position, activities, and cash flows of the University as a whole. University resources are classified and reported in the consolidated financial statements within separate classes of net assets based on the existence or absence of donor-imposed restrictions.

Net Assets Classification

The University classifies its net assets as without donor restrictions or with donor restrictions. Periodically, donor redesignations may result in reclassifications of net assets. The two net assets categories of the University are classified as follows:

Without donor restrictions – Net assets that are not subject to donor-imposed stipulations and are available for operations.

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

With donor restrictions – Net assets that are subject to donor-imposed stipulations. This includes net assets with donor restrictions that will be satisfied by the actions of the University, the passage of time, or both. These net assets include gifts for which donor-imposed restrictions have not been met (including gifts for capital projects not yet placed in service), pledges, split-interest agreements, and net assets from donor-restricted endowments not yet appropriated for spending. Once the restrictions are satisfied, or have been deemed to have been satisfied, net assets with donor restrictions are reclassified to net assets without donor restrictions.

Also included in this category are net assets with donor restrictions that require such assets to be maintained permanently by the University and invested to provide a perpetual source of income. The University considers cash assets and pledges that are maintained and invested in perpetuity as endowment funds that will ultimately be invested when collected. Certain donor restrictions are perpetual in nature and may include gifts, pledges, trusts and remainder trusts, and income and gains that are required to be permanently retained.

Operating and Nonoperating Activities

The Consolidated Statements of Activities present the changes in net assets by distinguishing between operating and nonoperating activities.

Operating activities principally include all revenue and expenses that relate to the University's educational programs, research, training, and supporting activities. Investment returns utilized included in operating revenues consist of appropriated endowment spending on pooled endowed funds and investment income on nonendowed funds, as well as nonpooled endowed funds, that were used to support operating activities in accordance with the University's endowment spending policy (Note 5). Operating revenues also include the release of restricted net assets which include prior year contributions for which the donor-specified conditions have been met.

The University has defined nonoperating activities to principally include net investment return less investment return utilized to support current year operating activities in accordance with the University's endowment spending rate policy (Note 5), restricted contributions, net assets released from restrictions and redesignations, provision for or loss on uncollectible contributions receivable, and transfer from related party. Certain other gains, losses or transfers in net assets related to transactions considered to be of an unusual or nonrecurring nature are also included in nonoperating activities.

Revenue Recognition

Revenue related to exchange transactions is recognized under the provisions of the applicable FASB Accounting Standards Codification ("ASC") Topic, which is typically ASC Topic 606, Revenue from Contracts with Customers. The University recognizes contributions in accordance with the revenue recognition provisions of ASC Topic 958-605, Not-for-Profit Entities Revenue Recognition. Revenue is considered a contribution if it is determined not to be an exchange transaction.

Revenue recognition for the University's significant types of revenue is discussed below.

Tuition and Fees

Tuition and fees are derived from degree and continuing education programs. The University administers a variety of federal, state, institutional, and private programs in order to assist students in meeting tuition and other costs of attendance. Tuition and fees do not include other items such

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

as meal plans and room and board which are included in auxiliary revenue in the Consolidated Statements of Activities; however the recognition process mirrors that for tuition and fees. Tuition and fee revenues are reported net of scholarships and transfers to AECOM. Scholarships are provided to offset tuition and fees and are either merit or need based. Tuition and fees and room and board revenues are supported by separate contracts entered between the University and the individual student.

Tuition and fees and room and board revenues are recognized as operating revenue in the period in which the University satisfies its performance obligations to its students. A performance obligation is a promise in a contract to transfer a distinct good or service to the customer and is the unit of accounting in ASC Topic 606. The University's performance obligations are to provide education to the student and, in certain instances, other items such as room and board. The University recognizes tuition and fees, and room and board on a straight-line basis over each academic session based on gross price, net of explicit price concessions such as financial aid grants which are applied to tuition and fees. The value that is recognized for each performance obligation is set forth in a publicly available University fee schedule and is identified in the individual contracts with each student. Individual contracts for tuition and fees, and room and board display the transaction price on a standalone basis for each service to be provided to each specific student. Additionally, the contract contains the price adjustment in the form of financial aid grants that are being awarded to the student. Given the timing of each year's academic semesters, nearly all performance obligations on behalf of the University are completed within the fiscal year.

The timing(s) of billings, cash collections and revenue recognition results in accounts receivable and deferred revenue and student deposits on the Consolidated Statements of Financial Position. Receivables are recognized only to the extent that it is probable that the University will collect substantially all of the consideration to which it is entitled in exchange for goods and services transferred to the student. Receipts received in advance of goods and services performed are recorded as deferred revenue and student deposits.

Of the \$134,444 in total net tuition, fees and auxiliary revenue recognized in fiscal year 2021, \$64,020 was from undergraduate students, and \$70,424 was from graduate students. Of the \$135,404 in total net tuition, fees and auxiliary revenue recognized in fiscal year 2020 \$72,098 was from undergraduate students, \$63,154 was from graduate students, and \$152 was from other sources.

Contributions

Contributions, including unconditional promises to give ("pledges"), are reported as revenues in the period received or pledged.

Conditional promises to give are not recognized until they become unconditional, that is, when both the barrier to entitlement and the refund of amounts paid (or a release from obligation to make future payments) have been substantially met. Conditional contributions received, where the barrier to entitlement has not yet been substantially met, are recorded as deferred revenue.

Contributions of assets other than cash are recorded at their estimated fair value at the date of receipt if the University received certain goods and services that meet criteria under generally accepted accounting principles in the United States of America ("GAAP") for recognition as contributions. Contributions of property and equipment are recorded as increases in net assets without donor restrictions unless the donor places restrictions on their use. Pledges not expected

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

to be received within one year are discounted at a risk-adjusted rate that includes a premium for credit risk, if any. In addition, provisions for uncollectible contribution receivables that are related to pledges with donor restrictions are presented under nonoperating activities.

Other Revenue

Other revenue consists of government awarded grants and contracts, income from the Jack D. Weiler Hospital of Albert Einstein College of Medicine ("WHAECOM") lease and other program income support revenue.

The University receives sponsored program grant and contract income from governmental sources. The funding may represent a nonreciprocal transaction in which the resources provided are for the benefit of the University, the funding organization's mission, or the public at large or it may be a reciprocal transaction in exchange for an equivalent benefit in return. Revenues from exchange transactions are recognized as performance obligations are satisfied which in most cases mirrors the timing of when related costs are incurred. Revenues from nonexchange transactions may be subject to conditions in the form of both a barrier to entitlement and a refund of amounts paid (or a release from obligation to make future payments). The University recognizes revenue earned from conditional nonexchange transactions when the barrier is satisfied, typically as related costs are incurred. In addition, the University has elected the simultaneous release option for conditional contributions that are also subject to purpose restrictions. Under this option, net assets without donor restrictions will include the donor-restricted contributions if the purpose restrictions are met in the same reporting year as the revenue is recognized.

The University has a lease agreement with Montefiore, whereby exclusive occupation, management, and control of WHAECOM is with Montefiore. The annual lease payment along with the straight-line of the WHAECOM lease are recorded as other revenue. On December 15, 2020, the University entered into a transaction to assign 49 years of lease payments to a third party, refer to Note 6.

Investments and Net Investment Return

Investments are stated at estimated fair value. These fair values may differ from the values that would have been used had a ready market existed for these investments, and the differences could be significant.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses are generally determined on the basis of average cost of securities sold and are reflected in net investment return in the Consolidated Statements of Activities. Dividend income is recorded on the ex-dividend date, and interest income is recorded on an accrual basis, and are reflected in net investment return in the Consolidated Statements of Activities.

Cash and Cash Equivalents

The Cash and cash equivalents line on the Consolidated Statements of Financial Position represents the University's working capital and includes cash on hand and other highly liquid investments having an original maturity of less than three months, excluding investments. Cash and cash equivalents may include cash in bank accounts and investments in money market funds. Cash and cash equivalents related to the University's investment strategies are included in Investments in the Consolidated Statements of Financial Position. In the Consolidated Statements of Cash Flows, the University elected to show restricted cash and cash equivalents from investments and other assets and receivables as part of a reconciliation equating to total cash,

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

cash equivalents and restricted cash. At times, cash in banks may exceed Federal Deposit Insurance Corporation ("FDIC") insured limits. Management believes that the credit risk to these deposits is minimal.

Student Receivables and Allowance for Doubtful Accounts

Student receivables are recorded when billed to the student. Student receivables are reduced by an allowance for doubtful accounts. The process for estimating the ultimate collection of receivables involves significant assumptions and judgments. Account balances are written off against the allowance when management determines it is probable the receivable will not be recovered. Historical collection is an integral part of the estimation process related to the allowance for uncollectible accounts. Revisions in allowance for doubtful accounts estimates are recorded as an adjustment to the provision for bad debts.

Institutional Student Loans

The University manages a variety of internal loan programs. Student loans are classified as net assets with donor restrictions. Interest earned on institutional loan programs is reinvested to support additional loans. The repayment and interest rate terms of the institutional loans vary considerably.

Split-Interest Agreements and Perpetual Trusts

The University's split-interest agreements with donors consist primarily of irrevocable charitable remainder trusts for which the University serves as trustee. The fair value of trusts and split-interest agreements are categorized as Level 3 within the fair value hierarchy. Contribution revenue is recognized at the date that the trusts are established, after recording liabilities for the present value of the estimated future payments to be made to the donors and/or other beneficiaries. The liabilities are adjusted during the term of the trusts for changes in the value of the assets, accretion of the discount, and other changes in the estimates of future benefits.

The University is the beneficiary of certain perpetual trusts and other split-interest agreements held and administered by others. The present value of the estimated future cash receipts from the trusts and agreements is recognized as an asset and as a contribution when the University is notified that the trusts or agreements have been funded. Distributions from the trusts greater than the estimated present value are recorded as contributions and the carrying value of the assets is adjusted annually for changes in the estimates of future receipts. Changes in the fair values of assets of perpetual trusts and agreements are recorded as increases or decreases in net assets with donor restriction.

Land, Buildings and Equipment

Land, buildings and equipment (Note 7) are stated substantially at cost, except for those received by contribution, which are stated at appraised value at date of contribution. Equipment, furniture and fixtures having a useful life of one year or more and an acquisition cost of five thousand dollars or more per unit are capitalized.

Depreciation is computed on a straight-line basis over the assets' estimated useful lives. Depreciable lives of buildings and improvements are 50 years for building shell and up to 28 years for all other building components. The depreciable lives of equipment, furniture, and fixtures range from 5 to 15 years and range from 5 to 10 years for software applications.

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

Refundable Advances From the U.S. Government

Funds provided by the U.S. Government under the Federal Perkins Loan program are loaned to eligible students and may be re-loaned after collection. These funds are ultimately refundable to the U.S. Government and are presented in the Consolidated Statements of Financial Position as a liability. The Perkins Loan Program was not reauthorized by the federal government in September 2017, and therefore, collected funds will be returned to the U.S. Government and the University proportionate to their original funding.

Fair Value

The University values certain financial and nonfinancial assets and liabilities by applying the FASB pronouncement on *Fair Value Measurements*. The pronouncement defines fair value and establishes a framework for measuring fair value that includes a hierarchy that categorizes and prioritizes the sources used to measure and disclose fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The hierarchy has three levels based on inputs that market participants would use in valuing the asset or liability based on market data obtained from sources independent of the University as follows:

- Level 1 Unadjusted quoted market prices in active markets for identical assets or liabilities.
- Level 2 Unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable.
- Level 3 Unobservable inputs for the asset or liability.

Inputs broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics and other factors. The University is required by the pronouncement to maximize the use of observable inputs (Levels 1 and 2) and minimize the use of unobservable inputs (Level 3). The University considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, provided by independent sources that are actively involved in the relevant market, and not proprietary. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the University's perceived risk of that instrument.

Assets and liabilities are disclosed in the Notes to Consolidated Financial Statements within the hierarchy based on the lowest (or least observable) input that is significant to the measurement. The University's assessment of the significance of an input requires judgment, which may affect the valuation and categorization within the fair value hierarchy. The fair value of assets and liabilities using Level 3 inputs are generally determined by using pricing models, discounted cash flow methods or calculated Net Asset Value ("NAV"), which all require significant management judgment or estimation.

As a practical expedient, the University is permitted, under the pronouncement, to estimate the fair value of an investment in an investment company at the measurement date using the reported NAV. Adjustment is required if the University expects to sell the investment at a value other than NAV or if NAV is not calculated in accordance with GAAP. All investments for which fair value is

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

measured using NAV are excluded within the fair value hierarchy, as long as no adjustment is required to NAV and the investment manager has reported a NAV at the measurement date. Investments are categorized as Level 3 if a NAV adjustment is required or if there is no reported NAV at the measurement date.

The University performs additional procedures, including due diligence reviews on its investments in investment companies and other procedures with respect to the capital account or NAV provided to ensure conformity with GAAP. The University has assessed factors including, but not limited to, managers' compliance with the *Fair Value Measurement* standard, price transparency and valuation procedures in place.

All investments are subject to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is likely that changes in the values of investments will occur in the near term and such changes could materially affect the amounts reported in the Consolidated Statements of Financial Position.

The fair value of the University's investments is disclosed in Note 4. A reasonable estimate of the fair value of loans receivable from students under government loan programs could not be made because the loans are not saleable and can only be assigned to the U.S. Government or its designees. The fair value of the mortgage loans receivable at June 30, 2021 and 2020 approximate carrying value in the Consolidated Statements of Financial Position. The carrying amount of the University's remaining financial instruments approximates fair value because of their short maturity.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingencies at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates and assumptions include the valuation of investments, provision for uncollectible receivables, the present value of multi-year pledges, and the allocation of expenses to functional classifications.

New Authoritative Pronouncements Adopted by the University

In February 2016, the FASB issued Accounting Standards Update ("ASU") 2016-02, Leases (Topic 842). The University adopted ASU 2016-02 on July 1, 2020 using the modified retrospective transition method that allows for application of the standard at the adoption date rather than at the beginning of the earliest comparative period presented in the consolidated financial statements. The University does not have material lessee lease obligations and therefore there is no further impact, resulting from this ASU, to the statements of financial position from the lessee perspective. The University has adopted this ASU as a lessor. At the time of adoption, the University elected to adopt various practical expedients as allowed by the standard. The University adopted the transitional package of practical expedients which among other provisions, allowed the University to carry forward historical lease classifications. Additionally, the University has elected the practical expedient that allows lease and non-lease components to be viewed together and not separately. Additionally, the University elected a policy, as permitted under the guidance, which excludes short-term leases from the application of this ASU. The University has also elected to use a risk free discount rate if the rate is not implicit in the lease. Lessors in operating leases continue to recognize the underlying asset and recognize lease income on either a straight-line basis or

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

another systematic and rational basis. Adoption did not have a material impact on the University's consolidated financial statements.

In August 2018, the FASB issued ASU 2018-13, Fair Value Measurement. The new guidance simplifies fair value measurement disclosures through the removal and modification of a number of investment related disclosure requirements. Certain disclosures are no longer required including amount of and reasons for transfers between Levels 1 and 2; policy for timing of transfers between level and valuation processes for Level 3 investments. The ASU is effective for fiscal year 2021 for the University. Adoption did not have a material impact on the University's consolidated financial statements.

New Authoritative Pronouncements Not Yet Adopted by the University

In September 2020, the FASB issued ASU No. 2020-07, Not-for-Profit Entities (Topic 958, Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets). The ASU amends financial reporting requirements in Topic 958, Not-for-Profit Entities by providing new presentation and disclosures requirements about contributed nonfinancial assets for not-for-profit entities. This ASU is effective for fiscal years beginning after June 15, 2021. The University is evaluating the impact of the new standard on the University's consolidated financial statements.

Reclassifications

Certain previously reported amounts in the fiscal year 2020 consolidated financial statements have been reclassified in order to conform to fiscal year 2021 presentation.

3. Liquidity and Availability of Financial Resources

As part of the University's liquidity management strategy, the University structures its financial assets to be available to meet cash needs for general expenditures, liabilities, and other obligations as they come due. A significant portion of the University's annual expenditures are funded by operating revenues in the current year including tuition and fees, endowment support, auxiliary enterprises, gifts for current use and other revenues.

The University routinely monitors liquidity required to meet its ongoing operating needs and commitments while striving to maximize the investment of available resources within its investment pools.

The University's financial assets available within one year of the Consolidated Statements of Financial Position for general expenditures, such as operating expenses, scheduled principal payments on debt, and capital projects are as follows:

	2021	2020
Financial Assets		
Cash and cash equivalents	\$ 19,363	\$ 19,436
Student receivables	10,400	9,300
Pledge receivables due in one year	17,911	11,861
Short term investments	64,200	36,500
Estimated spending appropriation	26,144	25,801
Total financial assets available within one year	\$ 138,018	\$ 102,898

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

In addition, the University has board-designated funds of \$4,996 and \$4,024 at June 30, 2021 and 2020. Although the University does not intend to spend from such funds, other than amounts appropriated for general expenditure as part of its annual budget approval and appropriation process, amounts from such board-designated funds could be made available if necessary.

The University was in compliance with its bond and bank loan covenants at June 30, 2021 and 2020. Management believes that the University will have sufficient resources to meet its ongoing obligations, through June 30, 2023.

Due to the COVID-19 pandemic, Congress provided Higher Education Emergency Relief Funds (HEERF) to higher education institutions via the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) and the American Rescue Plan Act (ARPA). The HEERF funds, which are eligible to be used for all permitted purposes dating back to the March 13, 2020 national emergency declaration onward, are divided into two portions, the Student Portion and the Institutional Portion. The University has been allocated HEERF funding in the amount of \$10,200 and \$2,500 for the fiscal years ending June 30, 2021 and 2020, respectively. During the years ended June 30, 2021 and 2020, \$2,472 and \$1,240 was drawn-down and utilized for qualifying institutional purposes and \$1,250 and \$1,250 was drawn-down and distributed to qualifying students as emergency grants. The remaining \$6,509 of allocated institutional and student HEERF funds will be drawn-down and utilized in fiscal year 2022. The University believes it is in compliance with existing federal guidelines with respect to the HEERF funds.

The University continues to monitor developments related to COVID-19. However, given the uncertainty regarding the future impact of COVID-19, it is difficult to predict the potential impact on the University's consolidated financial statements which may be material to the University's results of operations.

4. Investments

The University manages substantially all of its investments and those of certain Consolidated Organizations and Unconsolidated Organizations in three investment groups – the Long Term Pool (“LTPool”) for long-term investments, the Operational Investment Funds (“OIFunds”) for shorter-term investments, and Segregated Investments.

The Investment Oversight Committee of the Board of Trustees oversees the University's investment strategy for the LTPool in accordance with established guidelines, which cover, among other criteria, asset allocation, diversification, liquidity and performance return objectives. The overall investment objective of the University is to invest the LTPool in a prudent manner that will achieve a long-term rate of return sufficient to fund a portion of its annual operating activities and increase investment value after accounting for inflation. The University diversifies its investments among various asset classes incorporating multiple strategies and managers.

In anticipation of the Joint Collaboration Agreement regarding Einstein (Note 1), the University split the LTPool into two unitized pools in fiscal year 2015, both of which are included as part of the LTPool in the schedule below. The remaining portion of Einstein's investments of \$34,015 and \$35,972 at June 30, 2021 and 2020, respectively, represents investments held for AECOM that are being transferred over time due to illiquidity and other regulatory reasons. These amounts are shown separately on the Consolidated Statements of Financial Position as of June 30, 2021 and

Yeshiva University
Notes to Consolidated Financial Statements
June 30, 2021 and 2020

(in thousands of dollars)

2020, respectively.

The OIFunds are managed to a shorter-term investment horizon with an emphasis on liquidity. Investments include cash and cash equivalents and fixed income securities.

Segregated Investments include investments that are donor-directed and assets held in irrevocable charitable remainder trusts. These investments include cash and cash equivalents, U.S. Government obligations, mutual funds (fixed income), corporate debt, State of Israel Bonds, corporate stocks, mutual funds (equities), investment receivables, investment payables and other investments.

At June 30, 2021 and 2020, the value of the University's interest in these groups is as follows:

	2021	2020
Long term pool	\$ 642,343	\$ 493,907
Operational investment funds	94	94
Segregated investments	4,561	4,768
Total investments, at fair value	<u>\$ 646,998</u>	<u>\$ 498,769</u>

Included in segregated investments are irrevocable charitable remainder trusts of \$678 and \$837 as of June 30, 2021 and 2020, respectively. Included in investments held for AECOM on the Consolidated Statements of Financial Position are \$24,387 and \$18,993 of irrevocable charitable remainder trusts as of June 30, 2021 and 2020, respectively.

The following tables present the fair value hierarchy for those assets reported at fair value in the Consolidated Statements of Financial Position as of June 30, 2021 and 2020. The fair value amounts presented below are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Consolidated Statements of Financial Position as of June 30, 2021 and 2020:

Investment Strategy	2021			NAV	Total
	Level 1	Level 2	Level 3

Fixed Income

Fixed income securities include directly-held U.S. Government obligations, fixed income securities held in mutual funds, directly-held corporate debt and directly-held State of Israel bonds. U.S. Government obligations and fixed income securities held in mutual funds are valued based on quoted market prices in active markets and are categorized as Level 1. Corporate debt is valued based on quoted market prices or dealer or broker quotations and is categorized as Level 2. State of Israel bonds are recorded at face value, which approximates fair value, and are categorized as Level 2.

Equities

Equity investments include directly-held corporate stocks, public equities held in mutual funds, and long-only equities, long-short equities, private equity and venture capital, all held in limited partnerships. Corporate stocks and public equities held in mutual funds are generally valued based on quoted market prices in active markets obtained from exchange or dealer markets for identical assets, and are accordingly categorized as Level 1. Long-only equities (where only long positions in assets and securities are traded and held), long-short equities (where long positions that are expected to appreciate and short positions that are expected to decline are traded and held), private equity (which invests directly in private firms) and venture capital (which includes direct equity investments of less mature firms) are valued at NAV provided by the investment manager. All investments, for which fair value is measured using NAV, have been excluded within the fair value hierarchy.

Marketable Alternatives

Marketable alternatives include limited partnership investments in multi-strategy/event-driven and macro strategies. Multi-strategy/event-driven (which represents an investment strategy that includes several strategies or attempts to take advantage of events such as mergers and restructurings) and macro (that bases its holdings - such as long and short positions in various equity, fixed income, currency, and futures markets - primarily on overall economic and political

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

views of various countries (macroeconomic principles)) are valued at NAV provided by the investment manager. All such investments, for which fair value is measured using NAV, have been excluded within the fair value hierarchy.

Real Assets and Real Estate

Real Assets represent limited partnership investments in tangible assets that may include rail cars, ships, aircraft, forestry or traded commodities. Real estate represents limited partnership investments in real property. The interests in these investments are valued at NAV provided by the investment manager. All such investments, for which fair value is measured using NAV, have been excluded within the fair value hierarchy, as long as no adjustment is required to NAV and the manager has reported a NAV at the measurement date. Investments are categorized as Level 3 if a NAV adjustment is required or if there is no reported NAV at the measurement date.

Investment Receivables

Investment receivables include investments in limited partnerships where the University has placed redemption requests or provided prepaid subscriptions and are measured at NAV and accrued income earned not yet paid are measured at Level 1. All such investments, for which fair value is measured using NAV, have been excluded within the fair value hierarchy.

Other Investments

Other investments include life insurance policies and directly-held real estate property.

All net realized and unrealized gains (losses) in the table above are reflected in the Consolidated Statements of Activities. The University's policy is to recognize transfers in and transfers out as of the end of the period. During the years ended June 30, 2021 and 2020, there were no significant transfers between Level 1 and Level 2.

The University has made investments in various long-lived partnerships and, in other cases, has entered into contractual agreements that may limit its ability to initiate redemptions due to notice periods, lock-ups and other restrictions. The University has also made commitments to provide capital to various limited partnerships, and under the terms of those agreements, the University is obligated to periodically advance additional funding. The University had commitments of approximately \$93,255 and \$128,726 at June 30, 2021 and 2020, respectively, to investment funds and limited partnerships for which capital calls had not been exercised. These amounts have not been recorded as liabilities in the Consolidated Statements of Financial Position. Such commitments generally have fixed expiration dates or other termination clauses. The University maintains sufficient liquidity in its investment portfolio to cover such calls.

As of June 30, 2021 and 2020, there are no investments subject to lock up restrictions.

The University has placed redemptions with certain investments that are in the process of fully redeeming, are in liquidation or are side-pocketed. Payout from these investments is subject to when the investment manager determines and has the ability to sell the underlying assets to generate cash for payment. As such, payout of such investments may take a significant and indeterminable amount of time.

	<u>\$ 14,957</u>	<u>\$ 8,778</u>	<u>\$ 104,991</u>	<u>\$ 128,726</u>

Net Investment Return

Net investment return for the years ended June 30, 2021 and 2020 is as follows:

	2021	2020
Investment income	\$ 4,088	\$ 5,083
Investment expenses	(1,999)	(2,056)
Net realized and unrealized gains	139,962	23,062
Net investment return	<u>\$ 142,051</u>	<u>\$ 26,089</u>

Investment Support Appropriated From LTPool

In fiscal year 2021, investment support appropriated from the LTPool was \$40,759, inclusive of appropriation from endowments of \$38,042, of which \$37,389 was utilized. In fiscal year 2020, investment support appropriated from the LTPool was \$28,197, inclusive of appropriation from endowments of \$25,812, of which \$25,814 was utilized.

5. Endowment

The University's endowment consists of approximately 1,200 individual funds established for a variety of purposes and includes both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments. Net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Yeshiva University
Notes to Consolidated Financial Statements
June 30, 2021 and 2020

(in thousands of dollars)

The University classifies as net assets with donor restrictions: (a) the original value of contributions donated to the permanent endowment, (b) the original value of subsequent contributions to the permanent endowment, (c) accumulations to the permanent endowment required by the applicable donor gift instrument and (d) appreciation related to donor-restricted endowment funds. When appreciation is appropriated for expenditure and utilized, those amounts are reclassified to net assets without donor restrictions.

The following represents the University's endowment net asset composition by type of fund as of June 30, 2021 and 2020:

	2021		
	Without Donor Restrictions	With Donor Restrictions	Total
Donor-restricted endowment funds	\$ -	\$ 576,215	\$ 576,215
Board-designated endowment funds	4,996	-	4,996
Total endowment net assets	<u>\$ 4,996</u>	<u>\$ 576,215</u>	<u>581,211</u>
Other investments, net			<u>65,787</u>
Total investments			<u>\$ 646,998</u>

	2020		
	Without Donor Restrictions	With Donor Restrictions	Total
Donor-restricted endowment funds	\$ -	\$ 470,484	\$ 470,484
Board-designated endowment funds	4,024	-	4,024
Total endowment net assets	<u>\$ 4,024</u>	<u>\$ 470,484</u>	<u>474,508</u>
Other investments, net			<u>24,261</u>
Total investments			<u>\$ 498,769</u>

The tables above do not include endowed related pledge receivables, loan funds and other funds of \$45,954 and \$33,261 for the years ended June 30, 2021 and 2020, respectively.

Endowment net assets at June 30, 2020	<u>\$ 4,024</u>	<u>\$ 470,484</u>	<u>\$ 474,508</u>

The New York Prudent Management of Institutional Funds Act (“NYPMIFA”) contains provisions that govern appropriation and use, among other things, of donor-restricted endowment funds. NYPMIFA updated certain provisions of prior endowment management law.

Under NYPMIFA, a detailed prudence standard governs appropriation from endowment funds, and there is no longer a requirement to always maintain historic dollar value. Prudent appropriation from a fund whose value is less than its historic dollar value is permitted under certain circumstances. In particular, NYPMIFA provides that, unless a donor expresses a contrary intention

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

in a gift instrument, a charitable institution may appropriate as much of an endowment fund as it “determines is prudent for the uses, benefits, purposes and duration for which the fund is established,” without regard for historic dollar value. NYPMIFA retains the requirement that in making any decision to appropriate, “the institution shall act in good faith, with the care that an ordinarily prudent person in a like position would exercise under similar circumstances.” It further provides a requirement that the institution “shall consider, if relevant” the following eight factors in deciding whether or not to appropriate from a fund:

- The duration and preservation of the endowment fund.
- The purposes of the Institution and the endowment fund.
- General economic conditions.
- The possible effect of inflation or deflation.
- The expected total return from income and the appreciation of investments.
- Other resources of the Institution.
- Alternatives to expenditure of the endowment fund.
- The investment policy of the Institution.

The provisions of NYPMIFA allowing prudent appropriation without regard to historic dollar value apply to funds created after its September 2010 effective date. Donors of funds created before that date were given the option of requiring institutions to continue to observe the historic dollar value restrictions contained in prior law. Some donors of University funds have elected this option. Moreover, a donor may incorporate in a gift instrument specific restrictions on appropriation that are different from either NYPMIFA or prior law.

Certain of the University’s funds are governed by such restrictions. Thus, the University has funds that fall into three categories with respect to appropriation: those from which it may prudently appropriate without regard to historic dollar value; those from which it may prudently appropriate appreciation only above historic dollar value; and those whose appropriation is governed by specific instructions in the governing gift instrument.

The investment objectives for the University’s endowment are to preserve the principal value of those funds (noting guidance above regarding appropriation), in both absolute as well as real terms, and to maximize over the long-term the total rate of return earned without assuming an unreasonable degree of risk. In connection with these investment objectives, the Board of Trustees has adopted a spending policy.

The University’s spending policy is consistent with the University’s objectives to utilize income to support mission-critical programs while preserving capital and ensuring future growth of the endowment. Under the policy, and as approved by the Board of Trustees, the long-term focus of the endowment is to support the University’s mission by providing a reliable source of funds for current and future use.

The University utilizes a spending rate in allocating appreciation earned on assets invested in the LTPool. For fiscal year 2021, the spending rate policy consisted of appropriating 5% of the fair value per unit in the LTPool, based on a twelve-quarter average value through December 31 of the previous year. When donors have expressly stipulated the payout percentage of earnings on

Yeshiva University
Notes to Consolidated Financial Statements
June 30, 2021 and 2020

(in thousands of dollars)

endowment that differs from the University's policies, the donors' intent prevails. For fiscal years 2021 and 2020, the University approved an additional appropriation of approximately \$1,895 and \$2,431, respectively from certain accessible endowment gains in accordance with NYPMIFA guidelines, and for fiscal year 2021, the University approved a one-time special appropriation in order to repay a portion of the Manhattan Campuses prior borrowings from the LTPool of approximately \$12,500.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the original gift value, which represents the total of the initial and subsequent donor contribution amounts. When this occurs, the deficit is classified as a reduction of donor restricted net assets. Deficits existed in various donor-restricted endowment funds as of June 30, 2021 and 2020, which combined had an original gift value \$22,328 and \$80,748 at June 30, 2021 and 2020, respectively, and a current market value of \$17,124 and \$69,528, at June 30, 2021 and 2020, respectively, resulting in a deficiency of \$5,204 and \$11,220 at June 30, 2021 and 2020, respectively. These deficiencies resulted from market fluctuations that occurred after the investment of recent contributions and authorized appropriation from an endowment that was deemed prudent.

6. Receivables, Other Assets and Other Obligations

Student Receivables, Net

The tables below provide disclosures about student loan receivables as well as student tuition receivables at June 30, 2021 and 2020.

	2021		
	Receivable	Allowance	Net Receivable
Federal revolving loans	\$ 4,018	\$ (1,514)	\$ 2,504
Institutional loans	32,937	(9,992)	22,945

Allowance at end of year	\$ (1,514)	\$ (9,992)	\$ (5,963)	\$ (17,469)	\$ (8,996)	\$ (26,465)

	2020					
	Federal Revolving	Institutional	Accrued Interest	Total Loans Allowance	Student Receivables	Gross Allowances
Allowance at beginning of year	\$ (1,361)	\$ (8,259)	\$ (4,783)	\$ (14,403)	\$ (6,548)	\$ (20,951)
Current year provisions	(23)	(770)	(596)	(1,389)	(1,358)	(2,747)
Allowance at end of year	\$ (1,384)	\$ (9,029)	\$ (5,379)	\$ (15,792)	\$ (7,906)	\$ (23,698)

Write-offs of a student loan receivable are based primarily on the age of the receivable and an evaluation of any recent activity in the account. Overall default rates and an evaluation of general economic conditions are reviewed at least annually. The University, because of its close and continuing relationship with its students and graduates, seeks to work closely with the students and graduates to help ensure repayment.

Contribution Receivables, Net

Contribution receivables, net consisted of the following at June 30, 2021 and 2020:

	2021	2020
Amount expected to be collected in		
Less than one year	\$ 22,005	\$ 14,733
One to five years	45,783	23,867
Greater than five years	23,911	22,822
	<u>91,699</u>	<u>61,422</u>
Less:		
Discount to present value (0.66%–6.00%)	(5,418)	(4,425)
Allowance for uncollectible amounts	(3,218)	(4,702)
Total contribution receivables, net	<u>\$ 83,063</u>	<u>\$ 52,295</u>

As of June 30, 2021 and 2020, 60% of gross contribution receivables were from five donors.

Other Assets, Receivables and Other Obligations

Other assets consist of grant receivables, prepaid expenses, deposits, donated fractional interests in real estate, due to/from related entities, rent receivables, and various other miscellaneous receivables. Included at fair value are the assets of the University's 457(b) deferred compensation plan (Note 8).

The University has a lease agreement with Montefiore, whereby exclusive occupation, management, and control of the Jack D. Weiler Hospital of Albert Einstein College of Medicine ("WHAECOM") is with Montefiore. As of September 9, 2015, the annual lease payment is \$2,500 with increases thereafter of 2% compounded annually through 2114. The rental income on this lease is recognized evenly over the life of the lease, and accordingly, a rent receivable of \$37,886

Yeshiva University
Notes to Consolidated Financial Statements
June 30, 2021 and 2020

(in thousands of dollars)

and \$33,020 is included in other assets and receivables in the Consolidated Statements of Financial Position at June 30, 2021 and 2020, respectively.

As of June 30, 2021, the minimum future lease payments for WHAECOM over the next 5 years and thereafter and for the remaining term of the lease are as follows:

	2022	2023	2024	2025	2026	Thereafter	Total
Minimum lease income	\$ 2,815	\$ 2,872	\$ 2,929	\$ 2,988	\$ 3,047	\$ 732,402	\$ 747,053

In December 2020, the University entered into an agreement with a third party whereby the University assigned 49 years of the WHAECOM lease payments to be made directly to the third party in exchange for approximately \$58,000, which is the net present value of the assigned payments over that period of time, less the issuance costs of \$1,181. Under the terms of the agreement, the University, among other provisions, is required to complete a “tax lot sub-division” related to the leased property within 3 years (September 2023), or if not completed, have the option to either provide alternative collateral to the third party or repay the funds to the third party. Management has taken all necessary steps to cause the tax lot sub-division filings to be submitted to the relevant NYC agencies and is awaiting final approval of the sub-division.

Once the sub-division is completed the University will hold the lease and the underlying property within a special purpose vehicle (SPV), a consolidated entity, for which the University will be the sole member and provide an equity pledge of the SPV as collateral to the third party for the lease payments. At such time the University will no longer be required to guaranty any further lease payments to be made by Montefiore, the lessee. The transaction resulted in a discount rate on the assignment of lease payments of approximately 6%. At the end of the assignment period, the remaining lease stream of approximately 45 years would revert to the University.

The lessee, is expected to make the assigned lease payments to the third party in the following amounts over the next 5 years and thereafter:

	2022	2023	2024	2025	2026	Thereafter	Total
Assigned lease payments	\$ 2,815	\$ 2,872	\$ 2,929	\$ 2,988	\$ 3,047	\$ 216,044	\$ 230,695

Other obligations are shown net of issuance costs on the Consolidated Statement of Financial position at \$56,819 as of June 30, 2021. Annual payments will be allocated to interest and principal, and issuance costs will be amortized over the life of the agreement.

The University charges RIETS and the High Schools for management services (such as accounting, treasury operations, human resources, procurement, legal, and other administrative services) as well as facilities maintenance. The fees for these services to RIETS were \$2,500 for each of the years ended June 30, 2021 and 2020. The cost of these services to the High Schools was \$1,220 and \$1,300 for the years ended June 30, 2021 and 2020, respectively. The University’s inter-company balance to RIETS is (\$811) payable and \$520 receivable at June 30, 2021 and 2020, respectively. The University’s inter-company payable to the High Schools is (\$1,840) and (\$762) at June 30, 2021 and 2020, respectively.

Yeshiva University
Notes to Consolidated Financial Statements
June 30, 2021 and 2020

(in thousands of dollars)

Given the positive structural changes at the High Schools, the University and the High Schools agreed to reduce the due to related organization balance, within other assets and receivables in the Consolidated Statement of Financial Position at June 30, 2021 by \$2,500 for previously funded working capital advances to the High Schools. This is reflected as transfers from related party in the Consolidated Statement of Activities.

7. Land, Buildings and Equipment, Net

Land, buildings and equipment, net consisted of the following at June 30, 2021 and 2020:

	2021	2020
Land	\$ 13,717	\$ 13,717
Buildings and improvements	404,410	398,704
Equipment, furniture and fixtures	29,788	27,863
Capitalized asbestos remediation costs	3,945	3,945
	<u>451,860</u>	<u>444,229</u>
Less: Accumulated depreciation and amortization	<u>(275,837)</u>	<u>(262,751)</u>
Total land, buildings and equipment, net	<u>\$ 176,023</u>	<u>\$ 181,478</u>

The Depreciation and amortization expense related to buildings and equipment for the years ended June 30, 2021 and 2020 was \$13,086 and \$13,038, respectively.

8. Retirement Plans

Defined Contribution and Deferred Compensation Plans

The University has several defined contribution retirement plans in which most full-time and many part-time employees participate. The University's contributions are based on specified percentages of each employee's annual salary. It is the University's policy to fund retirement plan costs currently. Total retirement plan expense for the years ended June 30, 2021 and 2020 was \$4,423 and \$4,168, respectively.

The University has a 457(b) deferred compensation plan, which is offered to select management employees. The employee contributions are capped at the annual federal limit for deferred compensation. The assets related to this plan are included in other assets and receivables in the Consolidated Statements of Financial Position and amounted to \$17,128 and \$13,586 as of June 30, 2021 and 2020, respectively. The assets primarily consist of mutual funds and a guaranteed interest account classified as Level 1 based on the fair value hierarchy described in Note 4. The assets of the mutual funds for the years ended June 30, 2021 and 2020 were \$13,717 and \$9,868, respectively. The contract value of the guaranteed interest account for the years ended June 30, 2021 and 2020 was \$3,411 and \$3,718, respectively.

Offsetting liabilities that relate to this 457(b) plan are included in other liabilities as of June 30, 2021 and 2020.

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

Multi-Employer Benefit Plan

The University participates in the 1199 SEIU Health Care Employees Pension Fund, a multi-employer defined benefit pension plan, for its 1199 union employees.

The University makes cash contributions to the plan under the terms of collective-bargaining agreements that cover its union employees based on a fixed rate and hours of service per week worked by the covered employees. The risks of participating in a multi-employer plan are different from other single-employer plans in the following aspects: (1) assets contributed to the multi-employer plan by one employer may be used to provide benefits to employees of other participating employers; (2) if a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers; and (3) if the University chooses to stop participating in the multi-employer plan, the University may be required to pay an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

The University contributed \$1,182 and \$1,029 in cash and recorded expenses for the 1199 Pension Fund for fiscal 2021 and 2020, respectively. The University's contributions to the 1199 Pension Fund represent less than 5% of its total contributions to all retirement plans.

The following table includes additional disclosure information related to the 1199 Pension Fund.

Plan Name	EIN Plan Number / Pension	Pension Protection Act Zone Status		FIP/RP Status Pending/ Implemented	Surcharge Imposed	Expiration Date of Collective Bargaining Agreement
		2021	2020			
1199 Pension Fund	13-3604862/001	Green	Green	N/A	No	December 31, 2021

The Pension Protection Act zone status indicates the plan's funded status of either at least 80% funded (green) or less than 80% funded (red). A zone status of red requires the plan sponsor to implement a Funding Improvement Plan or Rehabilitation Plan.

9. Bonds Payable and Other Debt

Details of the bonds payable and other debt as of June 30, 2021 and 2020 are as follows:

Description	Maturity Date	Interest Rate	2021	2020
Bonds payable - DASNY Bonds				
Series 2011A ^(a)	November 1, 2040	4.00%–5.00%	\$ 44,210	\$ 46,575
Series 2009 ^(b)	September 1, 2038	4.00%–5.00%	90,725	93,805
Principal subtotal			134,935	140,380
Add: Unamortized premiums			(565)	(431)
Less: Unamortized bond issuance costs			(1,216)	(1,360)
Subtotal - Bonds payable - DASNY Bonds			133,154	138,589
Mortgages payable	Varied	3.13%–3.25%	3,098	3,187

Yeshiva University

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(in thousands of dollars)

- a. In September 2011, DASNY issued \$90,000 of Revenue Bonds Series 2011A (Series 2011A Bonds) on behalf of the University. The Series 2011A Bonds bear interest rates ranging from 4% to 5% with principal payments due at various dates commencing November 1, 2014, and a final maturity date of November 1, 2040. The Series 2011A Bonds are general unsecured obligations of the University; no security interest or mortgage encumbering University revenues or assets was granted in connection with the issuance of the Series 2011A Bonds. A portion of the proceeds of the Series 2011A Bonds was used for the payment of, or to reimburse the University for the payment of, certain capital expenditures and to reimburse \$20,500 on a line of credit. A portion of the Series 2011A Bonds was used to refund all but \$3,064 of the outstanding DASNY Series 2001 Bonds. The Series 2011A Bonds were issued with a net premium of \$3,390, of which \$186 and \$271 were unamortized as of June 30, 2021 and 2020, respectively.
- b. In July 2009, DASNY issued \$140,820 of Revenue Bonds Series 2009 (Series 2009 Bonds) on behalf of the University. The Series 2009 Bonds bear interest rates ranging from 4% to 5% with principal payments due at various dates commencing September 1, 2016, and a final maturity date of September 1, 2038. The Series 2009 Bonds are general unsecured obligations of the University; no security interest or mortgage encumbering University revenues or assets was granted in connection with the issuance of the Series 2009 Bonds. A portion of the proceeds of the Series 2009 Bonds was used for the payment of, or to reimburse the University for the payment of, certain capital expenditures. A portion of the Series 2009 Bonds was used to refund the outstanding DASNY Series 1998 Bonds. The Series 2009 Bonds were issued with a net premium of \$1,386, of which (\$751) and (\$702) were unamortized as of June 30, 2021 and 2020, respectively.
- c. In April 2017, in connection with the refinancing of certain private placement taxable bonds, the University transferred ownership of five mortgaged properties to Y Properties, a special purpose entity of which the University is the sole member (Note 1). Y Properties entered into a secured loan agreement with certain lenders whereby it issued notes in the aggregate principal amount of \$140,000 which are secured by a mortgage on the five properties owned by Y Properties. The terms of the notes are for 15 years, and the notes currently bear interest at a rate of 4.324% per annum. Until June 2021, Y Properties made interest only payments; subsequent payments will include a portion of the principal amount outstanding, using a 30-year amortization table.

As part of the loan, the University entered into a unitary lease with Y Properties, whereby the University will continue to use the mortgaged properties as a tenant pursuant to a long term operating lease and make monthly rent payments to Y Properties, initially in the approximate amount of \$1,590. Payments in excess of debt service and certain operating costs of Y Properties are distributed to the University as the sole member, on a monthly basis. As controlling member, the University includes the operations of Y Properties in its consolidated financial statements, and accordingly all intercompany revenue, expenses, equity transfers and distributions are eliminated in consolidation.

Yeshiva University
Notes to Consolidated Financial Statements
June 30, 2021 and 2020

(in thousands of dollars)

Projected debt service payments on the bonds, mortgages payable and notes are as follows:

	Principal	Interest	Total
Year Ending June 30,			
2022	\$ 8,151	\$ 12,504	\$ 20,655
2023	8,547	12,113	20,660
2024	8,923	11,734	20,657
2025	9,293	11,358	20,651
2026	10,930	10,910	21,840
Thereafter	<u>231,999</u>	<u>41,666</u>	<u>273,665</u>
	277,843	<u>\$ 100,285</u>	<u>\$ 378,128</u>
Unamortized premium	(565)		
Unamortized issuance costs	<u>(3,623)</u>		
Total projected debt service payments	<u>\$ 273,655</u>		

Interest expense on the bonds and other debt for the years ended June 30, 2021 and 2020 was \$12,675 and \$12,863, respectively.

10. Asset Retirement Obligations

The University has asset retirement obligations for asbestos-related removal costs. The University accrues for asset retirement obligations in the period in which they are incurred if sufficient information is available to reasonably estimate the fair value of the obligation. Over time, the liability is accreted to its settlement value. Upon settlement of the liability, the University will recognize a gain or loss for any difference between the settlement amount and liability amount recorded.

A reconciliation of the beginning and ending carrying amounts of such obligations is as follows:

	2021	2020
Asset retirement obligations at June 30, 2020 and 2019	\$ 9,122	\$ 9,552
Accretion expense	178	171
Asset retirement obligations settled or eliminated	<u>(129)</u>	<u>(601)</u>
Asset retirement obligations at June 30, 2021 and 2020	<u>\$ 9,171</u>	<u>\$ 9,122</u>

11. Due to AECOM

Included in the Consolidated Statements of Financial Position are certain assets that are being held for AECOM due to the Joint Collaboration Agreement (Note 1).

Yeshiva University
Notes to Consolidated Financial Statements
June 30, 2021 and 2020

(in thousands of dollars)

The following are liabilities payable to AECOM that the University has recognized as of June 30, 2021 and 2020:

	2021	2020
Investments held pending transfer	\$ 34,015	\$ 35,972
Cash and cash equivalents	384	580
Other assets and receivables		
457B Plan	2,014	1,821
Workers compensation	2,925	2,925
Faculty mortgages	252	279
Total due to AECOM	<u>\$ 39,590</u>	<u>\$ 41,577</u>

12. Allocation of Operating Expenses

The accompanying Consolidated Statements of Activities report expenses by functional classification in accordance with the educational mission of the University in categories recommended by the National Association of College and University Business Officers. The University's primary program services is instruction. Expenses reported as Academic support, Student services and Auxiliary enterprises are incurred in support of this primary program services. Institutional support includes general and administrative expenses of the University.

Natural expenses attributable to more than one functional expense category are allocated using reasonable cost allocation techniques. Depreciation, operations and maintenance expense are allocated on a square footage basis. Interest expense on indebtedness is allocated to the functional categories that have benefited from the associated debt.

Expenses by functional and natural classification, after allocating operations and maintenance, depreciation, and interest, are as follows for the years ended June 30, 2021 and 2020:

	2021					Total
	Instruction	Academic support	Student services	Institutional support	Auxiliary enterprises	
Direct expenses						
Compensation and benefits	61,447	26,719	13,600	27,627	2,742	132,135
Fees for services	1,640	1,002	982	8,069	40	11,733
Study abroad expenses	13,137	9	-	-	-	13,146
Other than personnel services	10,501	5,685	2,691	17,705	1,179	37,761

Other than personnel services	8,537	6,368	5,636	10,184	2,064	32,789
Total direct expenses	<u>79,673</u>	<u>35,126</u>	<u>19,384</u>	<u>46,387</u>	<u>4,927</u>	<u>185,497</u>
Allocated expenses						
Operations and maintenance	9,909	4,491	2,478	6,208	5,887	28,973
Depreciation	4,718	2,138	1,180	2,956	1,247	12,239
Interest	5,081	2,303	1,271	3,184	1,024	12,863
Total allocated expenses	<u>19,708</u>	<u>8,932</u>	<u>4,929</u>	<u>12,348</u>	<u>8,158</u>	<u>54,075</u>
Year ended June 30, 2020	<u>\$ 99,381</u>	<u>\$ 44,058</u>	<u>\$ 24,313</u>	<u>\$ 58,735</u>	<u>\$ 13,085</u>	<u>\$ 239,572</u>

Fundraising expenses are included in institutional support. For the years ended June 30, 2021 and 2020, such costs were \$7,476 and \$8,843, respectively. For purposes of reporting fundraising expenses, the University includes only those fundraising costs incurred by its development office.

13. Scholarships and Tuition

Student tuition and fees are presented net of amounts awarded to students to defray their costs of attending the University as follows:

	2021	2020
University unfunded support	\$ 58,895	\$ 75,665
University funded support	<u>34,235</u>	<u>19,478</u>
	<u>\$ 93,130</u>	<u>\$ 95,143</u>

University unfunded support includes tuition discounts, financial aid, and merit scholarships awarded to students from operating resources. University-funded support includes financial aid and scholarships funded from restricted and external sources, including federal grant programs, private giving and endowment support.

16. Contingencies

The University is a party to various litigation and other claims arising in the ordinary course of business. In the opinion of management, appropriate provision has been made for possible losses, and the ultimate resolution of these matters will not have a significant effect on the University's consolidated financial statements.

Amounts received and expended by the University under various federal and state grants and contracts are subject to audit by governmental agencies. In the opinion of management, audit adjustments, if any, will not have a significant effect on the University's consolidated financial statements.

Commencing in August 2019, and pursuant to the enactment of New York's Child Victims Act (and its subsequent extension, which extended the statute of limitations for the filing of claims of child sexual abuse and provided a two year window for the filing of previously time-barred claims commencing August 2019 through August 2021), eleven lawsuits were filed (two were voluntarily dismissed by the plaintiff). These Child Victims Act claims allege that the University is liable for certain alleged abuse during the 1970s and 1980s. The cases are in the earliest stages. Defense counsel has been retained. An answer or responsive pleading has not yet been filed in any of the cases. The University and the High Schools purchased insurance policies covering the applicable time periods in question, and do not believe that such litigation will have a material adverse financial impact.

(in thousands of dollars)

17. Subsequent Events

Subsequent event guidance requires the University to evaluate subsequent events to determine whether they provide additional evidence about conditions that existed at the date of the consolidated financial statements, and to determine if those events require recognition or disclosure in the consolidated financial statements. The University has performed an evaluation of subsequent events through December 23, 2021, which is the date the consolidated financial statements were issued.
