STERN COLLEGE FOR WOMEN • ACADEMIC ADVISEMENT CENTER

Peer Tutoring Center - Information for Students 2022/2023

The Peer Tutoring Center provides one-to-one tutoring as a service to the students of Stern College to help them achieve their academic goals.

Peer tutoring is currently offered in: Biology, Cell Biology, Chemistry, Computer Science, Genetics, Hebrew, Math/Calculus, Microbiology, Organic Chemistry, Physics, Sense of Music, and Statistics.

Client Responsibilities:

- Students may make appointments at <https://yu2.mywconline.com/> until 24 hours before a session.
- Appointments may only be made 2 weeks in advance and students are limited in the number of sessions they may request (1 per subject per week).
- A student who cannot keep her appointment must cancel online, preferably no later than midnight the night before, and notify her tutor so another student can benefit.
- For an emergency last-minute cancellation, the student should email both her tutor and meirah.shedlo@yu.edu
- Students who miss appointments repeatedly may be blocked from scheduling further sessions.
- Tutoring is limited to students currently enrolled in the specific courses for which they have requested tutoring. Students may not utilize the Tutoring Center for any other purpose, including review for the MCAT, DAT, etc.
- As a courtesy to other students, please avoid overlapping slots (ex. 3-5pm should be two discrete slots of 3-4 and 4-5pm).

Location:

From 9am-7pm, tutors and students meet in the waiting area outside the 6th floor Conference Room of 215 Lexington (Room #628). After 7pm, tutors meet with students in the 7th floor Writing Center (Room #714). Tutoring on Sundays takes place in the 245 Lexington building.

We look forward to helping you become the best student you can be! Feel free to contact Meirah (meirah.shedlo@yu.edu) with questions or comments.
