Office of the President

THE VIEW FROM YU

Not a week removed from the heinous attack on Pittsburgh's Tree of Life Synagogue, the Jewish world is still in a period of mourning for our murdered brothers and sisters. We have been cruelly reminded that even in this great nation the ancient, noxious fumes of anti-semitism still have the power to corrode the souls of our fellow citizens. "This is why I weep and my eyes overflow with tears" (Lamentations 1:16).

But as Matthew Arnold once wrote, when darkest night threatens to overwhelm, "The right thing is...to keep pushing on one's posts into the darkness, and to establish no post that is not perfectly in light, and firm." Indeed, as the educational epicenter of our global movement, Yeshiva University has sprung into action on myriad fronts, providing consolation and trauma support to the Squirrel Hill community both in person and from afar; pedagogical and counseling resources to our community educators and rabbis, as well as thoughts from faculty members across our many schools and programs to help our community and the broader society contextualize the events of this past week.

I am deeply proud of our students, teachers, professionals and alumni for their inspiring leadership as demonstrated by the many initiatives and resources detailed below. May those grieving be comforted, and may this Shabbat be one of peace, consolation and rebuilding.
